

KSA WhatsApp Chat Handling – Step-by-Step Guide

1. Opening / Greeting

- Respond within **30 seconds** of chat connection. You get scored on the time it took you to start interacting with the chat after the system message :

Please note this chat will be recorded for Quality and training purposes.

- Use the Informa standard greeting. You get scored on the completeness of your greeting.

Tahaluf Standard Greeting: “Welcome to Tahaluf, this is “Agent Name” How may I help (assist) you?
(all in one line avoid clicking enter half way when typing.)

- **Scroll up** to check If the customer already sent their request or their name before the chat starts, skip asking “How may I help you?” and instead Mention their name and recap their question directly:
“Welcome to Tahaluf, this is [Agent Name]. [Customer name] Your question regarding [state customer’s issue], correct?”
- After confirmation, assure the customer you will assist them with their inquiry.: “Sure, I will assist you with that.”

- **Correctly identify and mention the customer's name and event name.** You get scored on both so make it a habit to confirm the event name with the customer.

2. Chat Etiquette & Communication Skills You get scored on each of the below separately:

1- Use empathetic phrases.

If a customer expresses a complaint or shares a negative experience, it's essential to respond with genuine empathy to build trust and calm the situation. You can say:

- "We're truly sorry to hear about your experience."
- "We completely understand how frustrating this must be for you."
- "Thank you for sharing this with us; I assure you I'll do everything I can to resolve this promptly."

2- Avoid slang, jargon, or Arabic in English chats.

3- Use only positive words.

4- Ensure correct English (spelling, grammar, punctuation). You get scored negatively if the chat contains more than 2 mistakes.

5- Stay focused and attentive. This is scored by seeing how long you take to reply to the customer, avoid exceeding 50 seconds.

6- Mention the customer's name at least twice. We actually check 😊

3. Ownership You get scored on each of the below separately:

1- Reply to the customer's inquiry within 30 seconds to show ownership. You get scored based on the time you took to reply to the first message the customer mentions the query in.

2- When needed, Ask relevant questions to fully understand the customer's needs.

3- **You get scored on the silent chat process:** If a customer is not responsive, wait 3 minutes and check their availability at least three times during that period. If there's still no reply, inform them:

"Due to inactivity, this chat will close in 1 minute. Please contact us back if you still need any assistance."

After that, send the Tahaluf standard closing message.

4- **Always respond within 90 seconds to avoid appearing unwilling to help.** If a CSR doesn't reply within 90 seconds and the customer ends the chat (excluding technical issues), it may appear as unwillingness to help or avoidance. This one has a huge impact on the quality score

4. Contact Resolution You get scored on each of the below separately:

- **Accurately find the root cause and investigate issues.**
- **Provide complete, relevant information (aim for first contact resolution).**
- **Set proper expectations and never overpromise.**
- **Fulfill all promises (e.g., follow-ups).** We score you here based on Fulfilling your promises, we check if emails or group posts were sent regarding their issue\request.

5. Chat Control You get scored on each of the below separately:

- **VERY IMPORTANT** Follow the hold procedure:
 - Always ask permission before placing a customer on hold, explain the reason, and state the expected duration Then wait for their approval and thank them for holding when you are back. You get scored on Hold Procedures and if any one of the hold steps is missing you will lose the hold score.

Putting a customer on hold:

1. **Ask permission** politely and state the reason with a specific time:

“May I put the Chat on hold for 2 minutes to check the required information and get back to you, please?” “Could you please hold the line for 2 minutes while I check the information?” “Would you mind if I place the Chat on hold for 2 minutes to check the details and get back to you?”

2. **Return within the promised time** (2-3 minutes max). If it will take longer, **ask again for permission** to extend the hold time.

3. When back, **thank the customer**:

“Thank you for holding.”

- **Avoid silence over 50 seconds-use hold if you need more time.**
- **Stay in control of the chat flow.**

6. Process & System Check

- Follow correct procedures and provide accurate info.
- Never disclose confidential or customer data.

7. Documentation & Logging

- Log or close cases correctly with full descriptions.
- Escalate to the correct team if needed.

8. Wrap-up / Closing You get scored on each of the below separately:

- Confirm everything is clear with the customer.

To confirm everything is clear with the customer, you can say:

“Just to make sure, is everything clear so far?”

“Do you have any other questions or need further clarification?”

“I’m here to help if you need anything else.”

- Offer further assistance.
- Use the Informa standard closing.

Tahaluf standard closing is “Thank you for contacting Tahaluf, Have a good (nice, great) day.

- If the customer doesn’t end the chat from their end, close it after 1 minute following the closing process.

Lets follow these steps every chat for a perfect score!
