Bank Swift Code	: SCBLHKHHXXX
Exchange Rate	: US\$1 = HK\$7.76

***Exhibitor is responsible for all bank charges**

Please email the Bank-in Slip or Telegraphic Transfer statement with company name & stand number within 7 days to proceed with the order.

C) Online Payment (Credit Card, Alipay, WeChat Pay, FPS, Octopus)

3. Late Order Surcharge

20% surcharge for order received after **5 June 2026**

30% surcharge for order received after **18 June 2026**

4. Cancellation

Cancellation of orders will only be accepted in writing to Official Stand Contractors before the deadline.
Cancellation after **18 June 2026** will be subject to a 50% refund of the rental price of the cancelled items.

No alternation or cancellation of orders will be accepted from **25 June 2026** onwards.

5. Rental items

Exhibitor shall use the equipment in a careful and proper manner and in accordance with Rule and Regulations issued by the Organizers. Exhibitor is not allowed to make any alterations or modifications, attachments and/or additions to the equipment rented.

6. Electricity Order Specification

Electrical power supply is single phase: 220V/50Hz±6% and three phases: 380V/50Hz±6%. Exhibitors whose equipment is particularly sensitive should arrange stabilizers or regulators.

Total power consumption shall not exceed the current specified. Exhibitors must order enough electricity supply. In case of overload, the Organizers reserve the right to suspend the electricity supply until the problem is rectified by the Exhibitor concerned.

If total consumption exceeds the minimum 3 phase power point (15Amp/380V) but does not reach the next category (30Amp / 380V), exhibitors must not order separate power point / connection but order a higher power main supply.

Power point supply is to be used for running equipment / non-lighting exhibit only. For lighting exhibits, lighting connections should be ordered. For each power outlet, no tee-off and interconnection of the services cable is allowed. Each outlet serves a single unit of equipment only.

Lighting connections include power consumption and wiring only. If the items are used as built-in lighting in wooden works, please be reminded to prepare wiring inside the wooden works by your own if necessary.

Lighting connections are charged according to the number of tubes or bulbs used on the stand. Tubes or bulbs with wattage less than 100W will be counted as 100W.

The main power supply will be installed above 2.44m from your stand.

Use of multi-plugs or extension cords is not allowed in the exhibition Halls.

Hook-up from power outlet to exhibit is excluded. Please contact the Official Stand Contractor for the services charges.

All electricians working in the exhibition hall must comply with the subsidiary regulation in the Government Electricity Ordinance – Electricity (Registration). The employer of the electrician shall be liable for any damage caused if the electrician fails to comply with the above requirements.

For safety reasons, Space Only exhibitors or contractors should switch off the main power supply electricity after the exhibition closed. If the main power supply is not switched off after the closing time, the Organizer and Official contractor reserve the right to enter the stand to switch it off without prior notice.

REGULATION OF CATERING

1. All utensil cleaning should be conducted in the designated cleaning area setup by Event Organiser or Exhibitor.
2. Use of any cooking equipment (whether electrical or not) must obtain prior approval from HKCEC.
3. No elaborate food preparation processes are allowed at the licenced area, and no naked or open flame equipment is to be used at all times.
4. Effective protection(s) shall be provided by the Event Organiser or Exhibitor to protect event participants at all times. All cooking appliances facing aisles are required to be shielded off by 30cm high panels above the stove top on three sides to avoid spillage of cooking oil or hot water. To conduct food grilling, deep frying or using electric griddle, Event Organiser and/or Exhibitor must install charcoal-filtered range hood in the booth. Alternatively, Event Organiser or Exhibitor may consider using “smoke free” electrical appliances.
5. For the comfort of patrons, HKCEC reserves the right to decline and remove immediately any display of items that emit a pungent odour in the sole opinion of HKCEC, including (but not limited to) durian and stinky tofu.
6. Event Organiser or Exhibitor is responsible for securing relevant permits from the Hong Kong Food and Environmental Hygiene Department. Permit(s) must be obtained in order to distribute food and beverages.
7. The applicant named under this application form (i.e. Event Organiser or Exhibitor) acknowledges and confirms they have sole responsibility for the safety, hygiene, cooking and distribution of such food and beverage products, and such products are in compliance with all applicable laws. Accordingly, the applicant agrees to fully indemnify and forever hold harmless HKCEC's from all claims, liabilities, damages, losses, costs or expenses resulting directly or indirectly from the distribution of food and beverage products.
